MASTERS OF BUSINESS ADMINISTRATION

MBA

MASTERS OF BUSINESS ADMINISTRATION

MBA

The MBA curriculum offers a strategic balance of the mastery of business concepts. The program focuses on the development of skills related to management and designed to meet the needs of the executive corps. Courses are neatly structured and have pick and choose components, in other words optional and core courses. The MBA student is expected to complement his class studies with business journal readings, case presentations and discussions. Throughout your enrollment period with us, students are encouraged to apply their skills in practical settings.

The core curriculum provides the quantitative, analytical, strategic, and problem-solving skills required for successful careers in business management. Students are presented with a vibrant curriculum with real world applications.
